**End of life:**  
A guide for people with  
motor neurone disease

# End of life:

## A guide for people with motor neurone disease

In response to feedback from people with MND, we have produced a comprehensive and candid guide on end of life decisions, including:

- the benefits of planning ahead
- how to manage end of life discussions with health and social care professionals, family, children and friends
- what is likely to happen at end of life with MND
- advance care planning, advance decisions and the introduction and withdrawal of treatments for MND
- how to put personal affairs in order and what to do when someone dies
- an overview of the law regarding suicide and assisted suicide.
