

My Contacts

My Contacts is a view of the people the AV supports. This page is not editable and is generated by a MrC user allocating an AV to a contact. It pulls in the person’s name and Raiser’s Edge ID number, as well as basic information such as address and contact details

There is also a column here for deceased information. This would change from No to Yes when the person has died, and the system has been updated to reflect this. The notification generates based on 30 days from the date of notification not the date of death (because sometimes there can be a big delay between date of death and date of notification)

This list of people is the same list which will be shown for adding Support Activity Details. As such, it is important to check the list regularly and ensure all is correct. If this is not correct, please contact your ASC who can correct this for you
